METHOD AND APPARATUS OF MONITORING
TEMPERATURE AND STRAIN BY USING FIBER BRAGG
GRATING (FBG) SENSORS

EXAMINER'S AMENDMENT

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to the Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Erik C. Swanson on March 15, 2005.

The application has been amended as follows:

Claims

Claim 10, line 1; change the phrase "according claim 9" to --according to claim 1--.

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

The Examiner notes that the phrase in the various preambles of "monitoring the condition of a thermal barrier coating within a turbine engine having an operating temperature in excess of 1200 (degrees) C" has been given patentable weight.

Newly added independent claim 23 has been found to be allowable over the prior art for reasons consistent with the Applicant's statements in said amendment.

Newly added independent claim 24 has been found to be allowable over the prior art because, in addition to the Applicant's arguments, the prior art fails to teach or suggest a method of monitoring the condition of a thermal barrier coating within a turbine engine having an operating temperature in excess of 1200 degrees C, comprising:

embedding directly "a fiber lead" into the thermal barrier coating and
thermally protecting "a fiber lead" into the thermal barrier coating, wherein since this thermally protected fiber lead is set forth as being "a" fiber lead the interpretation is made that this fiber lead is separate and distinct from the above fiber lead embedded directly into the thermal barrier coating,

in combination with the remaining limitations of said claim.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
